

primary radiation damage a review of current - *in this review we discuss the current understanding of primary radiation damage from neutrons ions and electrons on inorganic materials we leave out many other important and interesting aspects of radiation damage*, **post transition metal wikipedia** - *the group 11 metals are typically categorised as transition metals given they can form ions with incomplete d shells physically they have the relatively low melting points and high electronegativity values associated with post transition metals*, **senior physics extended experimental investigations** - *senior physics resources for physics students teachers deadly eei ideas ideas for year 11 and 12 physics extended experimental investigations*
